With Christmas slowly approaching, we all are looking for some special presents for our loved ones. I am sure that a jewellery box is one of the things all little princesses would love. I have had a chance to review an absolutely **beautiful wooden jewellery box** designed by a **Swedish designer Marie Ekerholm**, the founder of Freya Design and have to say, that I was very impressed not only by the design, but also by the very high quality of the product and all the other features it has. It comes with a heart shaped mirror, latch and key, and four compartments. If you wish you can also get your box personalised! What else could a little princess wish for? Freya Design also makes beautiful keepsake boxes for boys and girls, trinket boxes, money boxes or storage boxes as well as just plain boxes. Check out all the attractive designs at www.freyadesign.co.uk
